

Frink U-936 Underslung Plow

The North American
Leader in innovative
snow & Ice control
equipment.

Standard Features

1. **One Piece Trip Blade** will trip over obstacles up to 4" high.
2. **Design Maintains Trip** Function despite the level of blade wear.
3. **Discharge End is Protected** with a steel roller.
4. **Quick Attachment** to the rear axle ensures drive height is unaffected by suspension travel.

Options

- Blade options
- Moldboard shoes
